

MUSLIMS' GREEN CARD AND CITIZENSHIP DELAY UNFAIR

PROJECT BFAIR

Better Fair American Immigration Rules

National Campaign to Speed Up Immigration Process for Muslims

Project BFAIR will...

1. Collect a nationwide database - at mosques, public events and online - of American Muslims affected by unreasonable delays in receiving their green cards and citizenship.
2. Legally challenge all unwarranted or unnecessary detention of Muslims at airports.
3. Convene a legal team to prepare to legally challenge and sue the government on behalf unfair immigration practices directed at Muslims concerning the lengthy time it takes for Muslims to receive their green cards and/or citizenship after they have been approved.

Despite approval, many Muslims have waited years to receive their green card or citizenship. This unfair practice has created undue hardship on families and the social and economic life of thousands of law-abiding Muslims who make America their home. Additionally, while traveling, many Muslims are detained at airports for hours without probable or legal cause.

THE TIME TO STOP THIS TREATMENT IS NOW!
